1. Feature Description, Integrity, Eligibility:

The feature is a one room school moved to this location and placed on a poured concrete pad. The hip roof is covered with asphalt shingles with metal capping and finials. The chimney is gone. The soffits are closed.

The siding begins with a rake board on all four sides of the building. The remainder of the siding is 6 inch wood lap with 4 inch wood corner trim. There are several places where new siding was added to cover up either window or door openings. There is not an entry or an entry door. A garage door is located on the south wall and that is the only entry. There Is one small, two paned window located at the south end of the west wall. Two more replacement windows are located at the north end of the east wall. All the windows have intact glass. The original windows were all taken out and the openings filled in and sided over. The interior walls and ceiling are all covered with wallboard. Old light fixtures without globes hang from the ceiling indicating the presence of electricity at some point.

The school was moved to this location for sentimental reasons as a relative of the farm was a teacher at the school. In its other location is was possibly named Prospect School #2.

3. Site Area (ft²):

4. Description of Access and Site Setting:

This building is situated on the east edge of an abandoned farm site. There are buildings to the west. Trees are west and north. There is a farm to the northeast. Another one room school is just to the east. The land is mostly pasture arount the site. To reach this site you go west of Killdeer 7 miles to 115th Ave SE. Turn left and go south 4-4 1/2 miles to see the school on the farm site. It is located on the west side of the road, about 1/4 mile off.
