1. Feature Description, Integrity, Eligibility:

The feature is a one room school sitting on a poured concrete basement. This school is in its original location. The gable roof of the school and the shed roof of the entry are covered with asphalt shingles with metal capping and finials. There are cornice returns on the east side of the building. There is red brick chimney located at the west end of the school building, it runs up through the entry.

The siding begins with a rake board on all sides of the school. The remaining siding is 6 inch wood lap with water board at the bottom on all sides. There is 6 inch wood corner trim. A concrete step leads to the entry. The entry on the west side has a panel wood door with the top half covered with plywood. The interior of the entry has some wall board on the walls and ceiling. Beadborad cupboards cover much of the east wall of the entry. Wainscot is seen on the other entry room walls. One double hung window is located on both the north and south sides of the door. There are two more double hung windows on the east end of the school and a bank of 6 similar windows on the south side. The glass is broken on one of the south windows and the others are intact glass, screened or covered. There is a basement under the school with small, fixed pane windows, some covered. The furnace is located in the basement. There is also wainscot in the shool proper. A blackboard is located on the north wall of the school room. The floor is covered with 1 foot square tiles. The walls and ceiling are finished with wallboard. Electricity is present as indicated by wiring on the exterior of the building. It is used for storage today.

The shed attached to the north side of the buildiing is used for storage. It once housed goats.

2. Owner's Contact Information:

3. Site Area (ft²):

4. Description of Access and Site Setting:

This feature is located on a farm/home site. There are trees to the north, west and east. A fenced yard attaches to the east side of the school with two homes on the property. Both homes are to the northeast of the school. To reach this school you drive south of Mandan on Hwy 6 to 46th St SW. Turn right onto 46th street and drive about 1 mile west to see the school on your right.

5. Summary of ALL Site Features and Evaluation of Significance:
